

Idera SharePoint migration suite™

ARCHITECT, ORGANIZE, AND MIGRATE SHAREPOINT CONTENT

Idera SharePoint migration suite is the most comprehensive solution available for SharePoint content migration. It goes above and beyond traditional SharePoint migration solutions enabling you to visually architect and organize content and metadata during your migration to improve search, eDiscovery, usability and manageability.

idera™

Most SharePoint migration products are “project-based”, designed for one-time use on a migration project with onsite services to craft a custom solution. Idera SharePoint migration suite is designed to be used over and over again, with no services required, in a wide variety of scenarios including:

- SharePoint platform upgrade - migration from or between SharePoint 2003 to 2007 to 2010
- SharePoint site consolidation
- SharePoint farm/site collection/site reorganization
- Rolling out new sites and applications from development through testing and staging to production

Whether you want to harness the full power of a multi-use migration solution or are just looking for the fastest way to migrate to SharePoint 2010, Idera SharePoint migration suite is your best choice. SharePoint migration suite includes:

SharePoint information architect™ CAPTURE, VISUALIZE, EDIT AND DEPLOY SHAREPOINT TAXONOMIES

- Capture and visualize entire farm structures in minutes
- Connect, load and deploy to any site or site collection
- Compare sites to ensure taxonomy compliance

SharePoint content organizer™ TAG AND ORGANIZE YOUR SHAREPOINT CONTENT IN BULK

- Organize SharePoint content in bulk
- Assign new metadata values and new content types
- Move or copy files to different folders, sites, lists or servers

SharePoint migration manager™ MIGRATE AND ORGANIZE SHAREPOINT CONTENT

- Quickly migrate sites, lists, list items all the way down to views, permissions etc
- Import files directly from file systems
- Change content type and column values during migration
